

Raluca Pârvan

Front-end developer

<> About me </>

As an Interaction Design student, I thrive at the crossroads of programming and design, with a relentless commitment to continuous learning and problem-solving. My meticulous attention to detail and effective time management enable me to deliver precise, high-quality work in both realms. My versatile skillset is a testament to my dedication to enhancing user experiences by integrating innovative design thinking, programming logic, and problem-solving

<> Education </>

Interaction Design B.A.Com

Malmö University, Sweden

AUG 2022 - PRESENT

• • •

Developed proficiency in HTML5, CSS3, JavaScript, and Figma, complemented by hands-on experience in user research, user testing, prototyping, human-computer interaction design, and a sound understanding of design thinking principles.

Information and Communication Technology B.A.Sc

Fontys University of Applied Sciences, Netharlands AUG 2021 - APR 2022

Focused on software engineering. Designed and managed databases using SQL. Collaborated with third-party stakeholders to formulate project plans, meticulously adhering to them during C# development with the .NET Framework and ASP.NET. Made use of sensors and modules in Arduino

Mathematics and Computer Science HsD.

Tudor Vianu National College of Computer Science, Romania SEP 2017 - AUG 2021

Learned fundamental and intermediate algorithmic principles and programming concepts through hands-on experience with C++.

<> Courses </>

Elements of Al

Linköping University, Sweden

JUN 2023 - AUG 2023

• • •

• •

Elements of AI, part 2: Building AI

Linköping University, Sweden

AUG 2023 - JAN 2024

Work experience </>

Junior Front-end Developer

Malmö University, Sweden

APR 2023 - JUN 2023

Collaborated closely with the design team to translate Figma-based designs into a fully functional web application. Utilized HTML5, CSS3, and JavaScript to ensure pixel-perfect implementation while maintaining design consistency and user experience.

Junior Front-end Developer

Freelance, Romania

FEB 2023 - MAR 2023

Designed and developed a scroll-based online poetry book using HTML5, CSS3, and JavaScript. Demonstrated proficiency in front-end technologies while integrating user-centric design principles and usability testing into the project.
